MEGA-MEAL™ CONTAINERS

NEW LOOK IN TABLE-READY PRESENTATIONS

Upscale alternatives to an aluminum half-steam table pan. Perfect for large portions, family size meals, and catered events serving appetizers, finger foods, desserts, cut fruit, and many other hot and cold applications. Attractive, smooth lines bring an elegant look to any occasion

VERSATILE AND STURDY

Available in three popular sizes to hold 2lbs, 5lbs and 6lbs. Resistant to hot grease or oils, will withstand temperatures up to 230°F when used under heat lamps, in hot merchandisers, or in the microwave. Clear, anti-fog lid maintains visibility of both hot and cold foods, avoiding errors and increasing impulse sales from self-serve displays

COST EFFECTIVE

One domed lid fits all three containers, keeping SKUs and inventory to a minimum. The lid is designed with a simple-to-close feature that keeps the operation running smoothly and efficiently while the interlocking design and leak resistant closure allow for stacking on display, in storage or during transport to prevent messy spills

DURABLE & RECYCLABLE

Engineered for performance and dishwasher safe, the strong construction allows for multiple uses as an added bonus for the consumer. Bases are made with 40% less petroleum-based resin and both the bases and the lid are polypropylene 5 and eligible for recycling

	Product Number	SKU Number	Description	Capacity (oz. /ml)	Dimensions (length x width x depth)	Case Wt. (lb/kg)	Case Cube (ft^3/m^3)	Case Pack	TI/ HI
