Subject: FDA Compliance: Polystyrene Containers/Lids

Date: January 7, 2021

This letter is in response to your request that Anchor Packaging provide you with information regarding FDA Compliance status of Anchor Packaging's Polystyrene-based food packaging. The polystyrene, as manufactured, meets the specifications of the US FDA food additive regulations; section 177.1640, Title 21, Code of Federal Regulations for plastics materials intended to come into contact with foodstuffs. Additionally, each ingredient used to manufacture these products complies with one or more of the following sections of Title 21, Code of Federal Regulations:

| | | | |
|---|---|---|---|
| 177.1640 | 178.3294 | 178.2010 | 181.28 |

These sections represent the official sanction of these ingredients by the U.S. Food and Drug Administration for use in food contact applications.

The overall migration limit of max. 10mg/dm2 contact surface or 60mg/kg food must be met by final article coming into contact with foodstuffs.

Anchor Packaging is a distributor of polystyrene and induces no changes that would affect compliance with the indicated regulations. Anchor relies on good faith with its suppliers and guarantees compliance of the products as described above up to the time the products are shipped. Thereafter, it is the responsibility of the customer to assure that all applicable conditions and specifications outlined under the above-mentioned regulatory categories are maintained.
If you require additional information, please do not hesitate to contact us.
