

ROASTER GRANDE

REUSABLE AND RECYCLABLE.

Both clear lid and black base are made of polypropylene. Microwave-safe. Dishwasher-Safe. Consumers can reuse again and again, and then recycle.

HIGH VISIBILITY MERCHANDISING

With ClearGuard anti-fogging lids, the greasy feel found in other lids is eliminated. Double vents allow steam to escape more freely to reduce condensation build-up.

HEAT-TOLERANT

Withstands temperatures up to 230° F, when used in warming units and under heat lamps. Will not generate off-odors or off-flavors like roaster containers of other materials.

LEAK-RESISTANT AND DURABLE

Lids will not crack like roaster lids made of other materials. Secure lid fit eliminates the need to overwrap with film or tape.

HIGH CAPACITY

Will hold the largest roasting chickens, up to 6+ lbs.
