

More KFC to Love

Proud to be part of the exciting New KFC Catering Program

The Catering market continues to grow and KFC's unique flavors are sure to be in high demand. Anchor is proud to have been selected to provide the containers to enable this new program. Our consumer-reusable and recyclable  polypropylene packaging for hot KFC catering meals can withstand and retain temperatures up to 230°F under heat lamps, in warming units or at home in the microwave. These oversized trays and bowls feature a leak-resistant design to ensure a clean, safe transport to your customers' hungry friends and family, waiting for plenty of delicious KFC to go around. Because they are reusable and dishwasher-safe, your customers will keep them for many months, providing a constant reminder of their great KFC experience.
