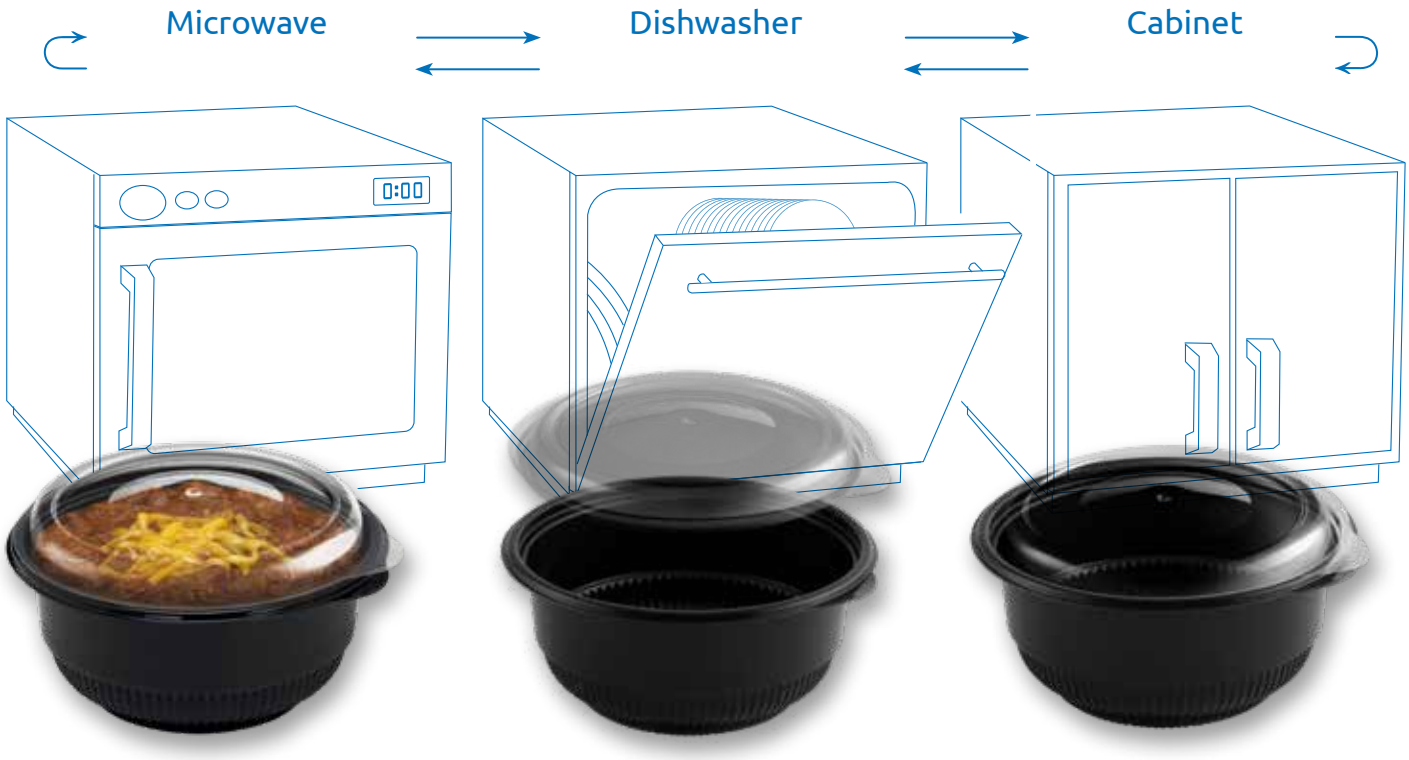
ANCHOR PACKAGING

2019 Catalog

DID YOU RE-USE AN ANCHOR TAKE-OUT CONTAINER TODAY?



Reuse Benefits

Multiple-Use!

Unlike single-use foam and paper containers, our polypropylene 5 PP products are designed to be reused again and again by the consumer. Made from the same material as reusable food storage containers purchased in stores.

Saves Energy!

Our polypropylene 5 PP containers are specifically designed for microwave re-heating instead of stove or oven heating which requires longer heating times and more energy.

Recycle!

After multiple uses over several months, recycle the polypropylene container when it begins to show wear and tear.

Check your community for recycling information (www.earth911.org).

Anchor Packaging 13515 Barrett Parkway, St. Louis, Missouri 63021-5870 800.467.3900 anchorpac.com

Sustainable Innovative Packaging

Original Source:
Environmental Protection Agency
Solid Waste Management Hierarchy

Anchor Packaging offers our customers environmentally neutral products produced in a sustainable manufacturing environment. **Anchor recycles virtually 100% of its raw materials** and continues to minimize our product designs to reduce waste and shipping fuel costs.

Anchor Packaging products offer these waste management strategies

Reduce: Our product development team has greatly reduced the weight and use of petroleum based resins in our products through design, process and material engineering without sacrificing performance. Some of our products have seen reductions in resin of up to 40%! Other rigid products use a minimum of 10% post-consumer RPET. PVC cling film includes 12% epoxidized soy bean oil (ESBO); meat film 5-8% ESBO. Cores are made with 100% recycled paperboard.

Reuse: Anchor Packaging was the first to introduce the "green" concept of **REUSE**, then recycle polypropylene takeout packaging. The EPA recommends **REUSE** over many other waste management strategies.

Recycle: Anchor's rigid plastic products are made of 1 PETE PETE/RPET and 5 PP polypropylene. **PETE is the most recycled** food packaging material nationwide. Polypropylene is also eligible for recycling in many communities along with aluminum foil. Dri-Gard™ on all film Cutterboxes is non-toxic water based polymer coating certified by Fibre Box Assoc. for recyclability. Check your community for recycling information (www.earth911.org).

Recover (stored energy): Anchor polypropylene products, when safely incinerated in a waste-to-energy facility, produce the **highest per ton BTU energy value of any waste material:** 38 million BTUs per ton. This is twice the energy value of coal, the primary source of electric power generation in the U.S.

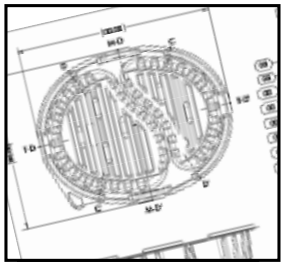
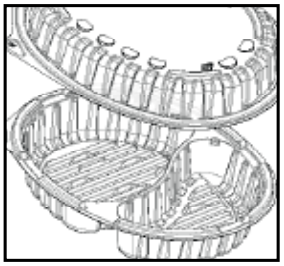
Custom Packaging Innovation

Giving You "What's Next"

For over 50 years, Anchor Packaging has supplied the industry with innovative consumer package solutions. We continue to expand our knowledge, designs and operational base to create and deliver the answers to tomorrow's packaging challenges.





Anchor devotes the resources to bring a stream of new and improved, value-added products and services to market. If your business can benefit from unique packaging that delivers the features and benefits required for your specific product, then Anchor should be your preferred packaging partner. With our optimized 7-step product development process, we can get your product to market in record time. Our turnkey solutions include full product design services, modeling, rapid prototyping, and in-house tool design, to take you from concept to production quickly and economically.

- Ideation through 3-D concept computerized renderings
- Rapid prototyping: 3-D Printed "real feel" samples, SLA models and unit cavity sampling
- Production prototyping

Our Custom Development Process utilizes "smart models", virtual reality information sharing and the ability to interact directly with one of our highly trained Product Engineers. Some unique technologies that Anchor can deliver include:

- Cost effective solutions with optimized performance
- Internal anti-fog (if applicable)
- Crystal clarity not normally found in polypropylene formulations
- Unique material blends and post-consumer content
- Functionally strong and stylish packaging
- Proprietary tool designs
- Technology to produce uniform sealing surfaces for high-speed applications

Giving You Results

Packaging that lets you stand out from your competition. Anchor Packaging will meet your needs with package performance that leads to better brand awareness and increased consumer appeal.

MAINTAINS FOOD TEXTURE AND TEMPERATURE Unique, patented, convection cross-flow designed to relieve moisture and condensation while maintaining product temperature. Through-the-closure ventilation and raised airflow channels in the bottom of the container, combine with venting in the lid to ensure fried foods remain crisp. Perfect for fries, chicken, wings, and more.
