

NATURE'S BEST® ALL-NATURAL MFPP HINGED CONTAINERS

VERSATILE – MICROWAVABLE – SUSTAINABLE

PRESERVE & PROTECT FOOD

Maintain the quality and presentation of takeout food with value-added packaging. The sturdy, versatile design preserves food temperatures, and the material is grease & oil resistant. An upscale alternative to foam and paperboard containers.

SECURE LID PREVENTS MESSY SPILLS

Tight, leak-resistant lid remains closed during handling and transport. The positive stacking design allows packages to be stacked in the bag while venting excess moisture. Offset tabs on the base and lid make the package easy to open and reclose.

HIGH HEAT TOLERANT/MICROWAVABLE

Withstands temperatures to 230°F under heat lamps, in warming units, and in the microwave. No need to transfer food to a plate to reheat. Perfect for many hot or cold foods to go.

REDUCE, REUSE, RECYCLE

Durable and cut-resistant polypropylene hinged containers made with natural mineral additives reduce the use of oil-based resin by 40%. All packages are dishwasher-safe, consumer reusable, and eligible for curbside recycling after multiple uses.

Microwavable Mineral-Filled Polypropylene (MFPP) Hinged Containers

	Product Number	SKU Number	Description	Capacity (oz. /ml)	Dimensions	Case Pack
