

# The Anchor Premium Roaster From Supermarket to Dinner Table.

- **Better Merchandising & Table Presentation.** Classic black casserole design provides your customer with an elegant and stylish table presentation, a serving platter that requires no re-plating. Minimal ribbing in lid provides for a better view and better merchandising of your prepared food item.
- **Easy Handling.** Textured handles on both ends remain comfortable to the touch, even under heat lamps or in warming units. Your customers can safely lift and carry the roaster from hot display to cart to dining room table. No cardboard handled sleeves needed, saving unnecessary SKUs and labor costs.
- **Leak-Resistant & Durable.** Lids are easily secured and will not crack or warp like those made of polystyrene.
- **Heat Tolerant & Microwaveable.** Includes a dome lid and base made with microwavable polypropylene. Heat tolerant under heat lamps and in warming units up to 230°F.
- **Reuse, Recycle.** Consumers will find this container attractive on the dinner table, and attractive environmentally. With its upscale casserole design, polypropylene construction, and microwave/dishwasher-safe capabilities, your customers will re-use this container again and again.

Anchor products are BPA-free.
