

Crisp Food Technologies® Hinged Fry Baby® Container

Keeps Food Hot & Crispy On Display and On-The-Go!

Perfect for Grab 'n Go or Home Delivery

Increase Impulse Sales - Clear Hinged Package with Anti-fog Base & Lid

Maintains Food Texture & Temperature for 30-Minute Home Delivery

Microwavable, Reusable, Recyclable

MAINTAINS FOOD TEXTURE AND TEMPERATURE

Unique, patented, Convection Cross-flow™ is designed to relieve moisture and condensation while maintaining product temperature. Through-the-closure ventilation and raised airflow channels in the bottom of the container, combine with venting in the lid to ensure fried foods remain crisp. Perfect for fries, strips, nuggets, and more.

SECURE CLOSURE AND STACKING

Eliminates messy spills with the snap on lid that remains closed during handling and transit. The package design allows steam to vent while stacked to preserve the presentation and maintain the crispness of fried foods.

HIGH HEAT PERFORMANCE AND MICROWAVABLE

Independent studies by leading retailers and restaurant chains demonstrate that the temperature and texture of fried foods are preserved longer than in competitive materials during 30-minute delivery. Packages withstand temperatures to 230°F under heat lamps, in hot case, and in the microwave.
